

MAKE YOUR MARK

FROM YOU TO US

The broad range of subjects offered at the Sixth Form College are brilliant and the teachers are friendly and approachable. The building is easy to navigate, which helps when you are starting somewhere new. I chose to study at the college because they offered all of the courses that I needed to progress into my chosen career. My advice to Year 11's when it comes to choosing which college is right for you is to apply early and look at the curriculum each college has to offer.
